## PROFESSIONAL SUMMARY

Python Developer with **1.5+ years at TCS** building production backend systems, GenAI automation, and data pipelines. Hands-on with FastAPI, Django, Flask, NumPy, Pandas, LLM integration, MySQL, Oracle, and Docker. MCA graduate passionate about scalable, AI-driven software solutions.

## EXPERIENCE

### Python Developer — Tata Consultancy Services (TCS)

Delhi NCR, India

Jan 2023 – Present · 1.5 Yrs

- Built Python **ETL pipelines** with Pandas & NumPy, processing millions of enterprise records with high reliability.
- Integrated **LLM & Generative AI** models into automation workflows — reduced manual processing effort by ~40%.
- Designed optimised **SQL queries** on MySQL & Oracle; improved query performance 30% via indexing and query rewriting.
- Developed & deployed **RESTful APIs** (FastAPI / Flask); containerised services with **Docker** for consistent deployment.
- **AI Hackathon — 3rd Place** among 50+ TCS teams; built and presented an AI solution prototype end-to-end.
- Enforced code quality via **pytest** unit testing and **Git/GitHub** in agile sprint workflows.

## PROJECTS

### Learnly — EdTech Platform

Python · Node.js · Django · Express · Tailwind CSS

- Full-stack ed-platform: Python & AI courses, webinar signup, portfolio showcase.
- Glassmorphism UI (Tailwind); REST backend via Django/Express; public demo via ngrok.
- Produced Python PDF modules, AI Roadmap guide & branded registration assets.

### AQI Prediction System

Python · Scikit-learn · Pandas · Matplotlib · Seaborn

- Random Forest model on PM2.5/NO2/SO2/CO — **R<sup>2</sup>: 0.91, RMSE: 8.3**.
- Feature scaling, 80/20 split, hyperparameter tuning for optimal accuracy.
- Feature importance & AQI trend charts for full model interpretability.

## TECHNICAL SKILLS

|                                                                                        |                                                                                 |
|----------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| <b>Languages</b><br>Python, SQL                                                        | <b>Frameworks</b><br>FastAPI, Django, Flask, REST API                           |
| <b>Data &amp; GenAI</b><br>NumPy, Pandas, LLM, Generative AI, Scikit-learn, Matplotlib | <b>Databases</b><br>MySQL, Oracle                                               |
| <b>DevOps &amp; Tools</b><br>Docker, Git, GitHub, pytest, Jupyter Notebook, VS Code    | <b>Soft Skills</b><br>Problem Solving, Analytical Thinking, Agile Collaboration |

## EDUCATION & CERTIFICATIONS

### MCA — Master of Computer Applications

Chandigarh University · Expected 2025

### BCA — Bachelor of Computer Applications

Kanpur University · 2023

### Certifications

- Python Essentials — Google / Coursera
- TCS iON Career Edge – Young Professional
- AI / ML Fundamentals — Coursera
- SQL (Basic) — HackerRank
